Activity for Create a beautiful static website for a small business using HTML and Bootstrap

a) I have created a beautiful static website for a small business Name ALL SOLUTION using HTML and Bootstrap.

b) MY website have a home page, an about page, a services page, a portfolio page, a blog page, and a contact page.

c) I use Bootstrap to create a responsive design that looks good on desktop and mobile devices.

d) I use semantic HTML to structure your pages.

e) I use appropriate heading tags, lists, and other HTML elements to organize your content.

f) I use Bootstrap carousel to create an image slider on home page.

g) I use a form for contact page that includes fields for name, email, phone number, and message.

h) I use appropriate validation for form fields.

I) I ensure that website is accessible to all users, including those with disabilities.

j) I test website in multiple browsers and devices to ensure that it works as expected.
